A non-refundable deposit of _____ and final payment of _____ were paid toward the full purchase price. Balance in **full** is due when puppy is picked up (no checks).

The dog is guaranteed to be in good health to the best of my knowledge. I strongly advise and encourage the new owner to take the puppy to his/her own vet for a checkup within 72 hours of its purchase. All responsibilities for the dog are released at the time of purchase. All future liabilities and vet bills will be the buyer's responsibility.

A replacement of equal value for this puppy will be made within 1 year of the puppy's date of birth under the following circumstances:

1. *The puppy has a life-threatening, genetic disorder and is returned with all papers within one year. Buyer will pay all shipping costs.*
2. *All returned dogs must have a letter from a licensed vet stating the diagnosis.*
3. *All replacements will be made upon availability for the same value, unless the buyer pays the difference. There will be **no cash refunds**.*

A licensed vet must check all puppies within 72 hours of receiving the puppy to activate this agreement. This agreement expires at one year of age.

The puppy has had first set of shots (if 8 weeks or older) and been wormed in accordance with their age. We do the best we can to ensure that the puppy is in good health, but we cannot guarantee against ear mites, coccidiosis, worms, or intestinal viruses since these are common in young puppies. We do guarantee against Parvo for the first 72 hours after leaving our care.

Breeder cannot guarantee adult size, color or trainability. This puppy is sold as pet quality. Breeder cannot guarantee show quality. All puppies are sold with limited registration unless prior arrangements have been made for breeding purposes only.

By signing this contract, it becomes a legal and binding document. Any and all disputes are encouraged to be handled with the breeder.
